They point to the fact that the scandals have been restricted to three bureaus of the department, and that the men most concerned in the frauds were old appointees, many dating back to Cleveland. They also call attention to the fact that just as soon as the President had any suspicion that there was corruption in the postal service, he gave orders that there should be a thorough house-cleaning. They say that his recent selection of two such eminent reformers as Charles J. Bonaparte and Holmes Conrad to direct the proceedings against the wrongdoers proves conclusively that he honestly intends to punish the guilty. His express instructions to these men were to investigate every department, and instance of fraud, that may be alleged. If their work takes them higher up, they will not stop in their labors to locate dishonest efficials, and when they place the proof of wrong-doing on any one, the President will stand by them, and see that full punishment is meted out.

Death of St. Louis Traveler Raises a Complicated Question as to the Immediate Disposition of His Belongings. [BY DIRECT WIRE TO THE TIMES.]

NEW YORK, June 25.—[Exclusive Dispatch.] The death h St. Louis of Dr. Francis Tumblety, formerly a resident of this city, has raised a complicated question as to the immediate disposition of his funds. Dr. Tumblety had kept a running account with Henry Clews & Co., bankers of this city, for iventy years, and at the time of his death, last month, he had on deposit 5138,000 in cash, a considerable part of which had been made in the stock market.

Mf. Crane arrived in Washington to day, and had an interview with the President. It is understood here that Hanna, who has left Cleveland en route for Washington, will arrive here tomorrow, and that an important conference between the President, Hanna and ex-Gov. Crane will be held at the Executive Mansion. Speculation runs high here tonight in political cries as to the outcome. The suggestion that Elihu Root of New York might consent to accept the chairmanship of the National Committee, has been received with expressions of greatest satisfaction by leading Republicans and politicians now in this city.

At first, it was decide the petition should not be presented, by the Russian government and lead to a response that would cause a break in the relations of the two countries. However, the first conclusion has been reconsidered, and by direction of the President the petition will go forward.

DEPARTMENT OF STATE.

WASHINGTON, D. C. June M. 1984.
Dear Sir: The President has concluded to transmit to the Russian government the petition of which you presented him a draft on the 18th of this month. The matter, which he had to consider most seriously, was whether or not such a proceeding would be to the advantage of your persetuted and outraged co-religionists in Russia. On this point he has decided to accept your opinion and that of the numerous and intelligent groups of American citizens of the Jewish faith whom you represent. He requests that you will send him the petition in the form at your earliest convenience. Of course, you will understand that the President cannot tell you what reception your petition will meet with at the hands of the Russian government. I am sir, faithfully yours.

COLOMBIA TO RATIFY THE CANAL TREATY.

BY DIRECT WIRE TO THE TIMES.1

WASHINGTON, June 25.—[Exclusive Dispatch.] There is now every indication that the Colombian Congress, which convened last Saturday, will ratify the Isthmian Canal treaty with but little delay. Cablegrams were received here this afternoon, both at the Colombian Legation and by the representatives of the new Panama Canal Company, saying the opposition to the treaty was disappearing, and predicting ratification within a week or ten days. It is understood that by the request of the President, Secretary Shaw has deferred his European trip. He had arranged to sail July 4. Immediately after the exchange of ratifications, which, it is believed, can be done by cable, 44,000,000 will become due to the new Yanama Canal Company and 310,000,000 to the Colombian government. Secretary Shaw will make these payments. Scores of applications have been made for positions on the Canal Commission.

SERVIA. ING PETER TAKES OATH REFORE SKUPSHTINA.

AFTER BENEDICTION ALL JOIN IN NATIONAL HYMN.

Which is Followed by a Review of the Troops-Future Attitude of Powers Depends on Policy of King.

[BY THE ASSOCIATED PRESS-A.M.] BELGRADE, June 25.—[By Atlantic Cable.] Amidst great enthusiasm, King Peter this morning took the oath before the Skupshtina. Subsequently he held a review of the troops. The oath taken by the King was in the following terms.

upon this earth that I will protect the independence of Servia, and the unity of its government; that I will maintain inviolate the constitution of the country; that I will govern in conformity with the constitution and the laws, and that in all undertakings and dealings I will keep the welfare of my people before my eyes. Taking this, my oath, solemnly before God and the people, I call as witness the Lord, God, to whom I shall give account at the judgment seat. So me God. Amen."

Previous to the King taking the oath there was a joint sitting of the Senate and Skupshtina, attended by a religious service, at which the metropolitan officiated.

The President of the Senate opened the joint session with announcement that the King would take the eath to maintain the constitution. King Peter then appeared, wearing his orders and decorations and accompanied by his cabinet ministers.

The metropolitan uttered a brief prayer, and then read the cast which

when he took the cath, and the expression on his face, showed masterfulness and his intention to be a King in fact as well as in name, ruling unflinchingly as well as justly. The demonstrations yesterday, aparently convinced him that he is not merely the elect of the military or of a certain faction, but that he had the people at his back.

The proceedings today were marked by solemnity. The oid parliment building, a bare barn-like structure, with flimsy decorations, was crowded with representatives, officers, clergy and civiliars, who loudly cheered "Long live the King," as he appeared. The King gianced sharply, almost sternly, at the deputies, some of whom were in peasant garb, while others were dressed in the height of western fashion.

Taking a seat in front of the throne over which his own portrait hung, the King waited with calm assurance for the ceremony to begin. Lighted candles had been placed on a table in front of the King, on which rested also a richly bound bible and the metropolitan's jeweled cross.

[BY THE ASSOCIATED PRESS-P.M.]
LONDON, June 25.—[By Atlantic Cable.] The list of honors in connection
with King Edward's birthday, which

set for its observance, is unusually long. It includes four peerages, three privy councillors, six baronets, a large number of knights and promotions to the Orders of the Bath and St. Michael and St. George. The Admiralty announces that the Prince of Wales has been promoted to the rank of vice-admiral. Elevations to the peerage include Sir Edward Levy Lawrence, proprietor of the Daily Telegraph; Michael Biddupp, the banker and former Liberal member of Parliament for a Herefordshire division; H. A. F. Watson Armstrong, the present head of the well-known ord; nance firm and nephew of the late Baron Armstrong, to whose peerage he virtually succeeds, and George T. Southern-Ercorta, large land owner in Gloucestershire and Wiltshire. The last-named was a member of Parliament for North Wilts, from 1874 to 1885. He had his seat at Escort, Tettsury, Gloucestershire.

The Lord Mayor of London, Sir Marcus Samuel, is created a baronet. Lord Tennyson is made Knight of the Grand Cross of St. Michael and St. George, while Sir Anthony McDonnell is appointed a privy councillor in recognition of his work in drawing up the Irish Land Bill.

When they arrived at the scene a landslide had destroyed all trace of the exact location of the former find, but by persistent searching they discovered at another point a ledge of gold-bearing rock not less than twenty feet in width at any point and extending for a distance as far as they explored it, of more than 3000 feet.

The ore brought to this city "horned" \$12.50 to the ton and a fire test showed as high as \$150. Returns have not yet been received from the assayers in San Francisco, but, owing to the length and width of the ledge, mining men say that the find will prove one of the riches in the Stafe.

The presence of an excellent millsite on Kern River within 400 feet greatly enflances its value. Crowds of people have thronged the Southern Hotel bar, where the specimens have been exhibited since the return of the four original locators two days ago. Their return so soon to the mine is evidence of their interest. The claim is named the "Lucky Four," and while out the party will locate a number of additional claims for themselves and others.

SUPPORTED BY FEDERATION. The striknig miners had and have their own union, designed at first as a their own union, designed at first as a charitable organization. At the beginning of trouble, overtures were made for the union of this organization with the Western Federation of Miners. Several union miners were sent into the district from Globe and arrangements were thade for further organization, work after the adjournment of the Federation session at Denver. George H. Kelly, one of the prominent news, paper men of the Southwest, telegraphed the president of the federa-

tion, asking "the attitude of the West-ern Federation of Miners regarding the strike," and whether any steps were being taken to organize a union in Morenci. NEW YORK, June 25.—There was an

Western Federation of Miners. [Signed] William D. Haywood, secretary and treasurer."

But it is unlikely that the federation will ever organize the district. In the first place the Mexican and Italian miners are suspicious of the American, in which designation they include the Irishman or Cornishman. And, again, according to the parish priest, Father Timmermans, really the chiefest grievance the strikers had was that the enfoloying companies refused to reward special ability among the miners with correspondingly increased pay. This view, of course, is totally at variance with the union view that all union men are equal in the matters of time and pay.

The strike, at its most critical stage, assumed much of the aspect of a race war. A few American timbermen and smeltermen at first joined in the agitation, but, before more than a few days had passed, every white man was found with his compatriots, carrying a rifle in defense of order and propriety. Another significant point is that of the thousands of rioters and strikers, only 200 are voters. They celebrate any holiday but the Fourth of July, and are hopelessly allen in every thought. informal meeting today of members of the International Mercantile Marine Company at the company's office in this city. as to the subjects under discussion at the meeting.

A gentleman who is in a position to speak authoritatively took the occasion, however, to say that rumors that the International Mercantile Marine Company might pass payment of interest upon its \$50,000.000 of bonds were entirely without foundation, and that, as a matter of fact, the quarter per cent. semi-annual interest on those bonds was paid last April. The next interest period will not be reached until October. WAS ALMOST A WAR.

TERRIBLE MUD FLOOD.

are hopelessly allen in every thought.

TERRIBLE MUD FLOOD.

Both the Detroit and Afisona Copper companies have practically cleared away the debris of the flood, and the railroad tracks are open. The Detroit company is running its smelter, almost to full capacity, and the Arisona company will follow suit within a few days.

With singular disregard of consequences, former Mexican occupants of Chase Creek Cafon, Clifton, are leginning to rebuild their shanties on the same spots whence they had to flee for their lives on the coming of the cloudburst. Clifton has royally provided for the destitute. The Arisona Copper Company has contributed \$2500, Phelps, Dodge & Co. (Detroit Copper Mining Company,) \$2000; James Colquhoun, general manager of the Arisona Copper Company, \$500; the First National Bank and the Gila Valley Bank and Trust Company, \$350 each. Altogether fully \$10,000 is available. Offers of assistance received from Loe Angeles and elsewhere have been declined with thanks. The death roll is indefinite. Many who are in position to know, assert that even fifty Mexicans were drowned. Only thirteen bodles have been recovered, but more than a score are known to have ben carried down the creek and buried under the tailings. The flood was one of mud, as thick as molasses, and most of the victims were choked in the murky flood rather than drowned. One young girl was hauled out yet alive, but with her lungs filled with mud, rendering resuscitation impossible. The damage to houses was not so considerable in point of value, for the cost of most of the shanties was small, indeed, but siores and residences in the better part were flooded. All in all, inclusive of roads and railways, the damage can fall little short of \$100,000.

War on Hop Mite.

UNIVERSITY OF CALIFORNIA, June 25.—W. A. Volck, a student entomologist, has devised a plan to destroy the hop mite, the insect that has done so much to injure California hop fields. He proposes to destroy all the herbage and greens that grow in the neighborhood of the hop fields, destroying at the same time the food that sustains insect life. Volck believes, that by attacking the insect this way its destruction will be assured, and may make unnecessary the uncertain and expensive process of spraying the vines.

MORE PROOF OF CORRUPTION.

ST. LOUIS, June 26.—According to information which Circuit Attorney Folk secured today, \$19,000 was spent in Jefferson City to pass the bill legalizing outstanding county warrants, which were issued with deficiencies in the treasury. This measure was one of the so-called "quiet measures" of the General Assembly, and attracted little attention, at the time it was being considered. It is said that there are more than \$1.000.000 in these warrants now in the hands of speculators. The Supreme Court has declared these warrants to be void and only an act of the Assembly could make them legal.

Deputy Marshal Gus Hall of Olive Hill, Ky., while approaching Everett Balty with a warrant for his arrest, was yesterday shot and instantly killed by Baity. Marshal Lewis White was called to the cone and shot and killed Baity. It is said Balty was loading his gun preparing to shoot White. Balty was charged with stealing tools.

TRRIGATION IN ARIZONA.

A special dispatch from Wash-ngton, published in The Times of Wednesday, announced that the objections raised by certain large prop-erty owners in the Salt River Valley to the Tonto Basin reservoir scheme large landowners desired to put in their property as security to the govnent in tracts larger than 166 acres. They were shown, however, that this would be impossible, under the law, and have logically given in, so that the necessary amount of land has now been secured, and the govern-Hminary work for the construction of this great reservoir, which it is to say about it at an early date. kind in the world, with the single Indians, are deserving of some conon of the great dam on the sideration. a few citizens of the Gila Valley, in Arizona, who wish to see the government begin work on the San Carlos reservoir site, instead of that at Tonto Basin. These people claim that the Tonto Basin Improvement would be exclusively for the benefit of land now held in private ownership, and they have gone so far as to cast reflections upon the integrity of high government officials, of representa-tives of the National Irrigation Assoclation, and others who have fav-ored this enterprise. No attempt will be made here to come to the defense of the gentlemen who have thus been

unjustl- attacked, for it is unnecessary, but a few words may be said in regard to the facts of the case. The reason why a beginning can-not be made on the Gila River, under the terms of the irrigation act, have already been set forth in The Times. In the first place, the act may not be utilized for the benefit of any save farmers who have the ability to bind themselves for the return of the moneys by the government expended. This bars out the Indians of the Gila Valley, or any other section. Secondly, the land on which it is proposed that a dam shall be built is upon the Apache Indian reservation, upon which entry for dam building could be made only by virtue of ex-press act of Congress. Thirdly, and perhaps most important, a feasible dam site has not been found on the Gila. The first site was at The Buttes, only twelve miles above Florence. Borings disclosed the fact that, the depth to bedrock was anywhere up to 100 feet, making dam construc-tion practically impossible. Then the engineers, honestly seeking a site, perity." moved up stream. One or more dam

sites below San Carlos were tested,

Let it further be remembered that these people who are making so much hubbub over the Indians in the Gila Valley are the ame who, by the construction and operation of the Florence canal, first deprived those Indians of their vested irrigation rights. These Indians are as The Times has frequently said, fully deserving of relief, not as a charity, but as a measure of justice. They

be that Theodore Roosevelt will be the candidate of the Republican party for President in the next campaign. That his candidacy will be successful is the general opinion of Republicans throughout the country, though the fact is recognized that this result is not to be accomplished without a struggle. The platform upon which Mr. Roosevelt will stand is not a matter of doubt. It will consist of a reaffirmation of Republican principles upon which the party has won two one in 1900-with the great and wis McKinley as its standard bearer. The practical realization of Republican principles and policies, in the national administration, has brought to the country an era of prosperity and advancement so phenomenal that the wisdom of these principles and policies may be regarded as having been established to a demonstration Theodore Roosevelt has the confidence, and commands the loyal support, of the entire Republican party, which therefore presents a united front to its political opponents. He would get the votes of the ignorant, the thriftless, the shiftless, the anarchists, the com munists, the scum of the cities. But he could not command the votes of respectable and self-respecting Demo cracs. In this respect he would be far weaker than Bryan. His candidacy would not have the dignity, even, o the candidacy of Debs. His defeat would, as a matter of course, be not merely overwhelming, but ignomin

How about the thousands upon thousands of self-respecting Demo crats whose gorge would rise at the very thought of such a thing as Hearst in the running for the Pres dency? Would they hold another convention and nominate Cleveland or some other Democrat of unimpeac able orthodoxy? Or would they quietly vote the Republican ticket as many of them did in 1896 and again in 1900? The latter course would obviously be the more sensible drought in the Salf River Valley, near Phoenix. But there is no probability that Ed. Atkinson ever will be reconciled.

According to all accounts, our friends, the Democrats, are planning to make a tremendous ruction in the next Congress, on the pretense that the country is fast going to perdition, and that the only way in which it can be saved is put the Democratic party in control to the Democratic party in control to put the Democratic party in control of the government. We have heard this sort of thing before. And we have seen the Democrats "save the country"—in 1892-96, for example.

And now the Eastern and Middle States, after nearly two months of blighting drought, are having something like a deluge. If our old friend, J. lines in Southern California would be looked after by Mr. Fitsgerald, and Mr. Conneily's appointment resterday came in the nature of a surprise to all parties concerned. The reasons for it all are doubtless best known to the traffic managers in the East, but, masmuth as charge of affairs in Northern California was assaigned to the freight end, it is supposed the same order of things was wanted in this end of the State: in fact, it is quite a general rule that the ranking officer shall be out of the freight department.

The jurisdiction assigned to Mr. Connelly as freight and passenger agent of the Gould lines in Southern California will lie south of San Luis Obispo and Bakersfield. It is probable that Mr. Fitsgerald will be given charge of the passenger end of the district's business.

The appointment is effective on and after July 1 Details as to the working force in the aministration of affairs under Connelly will not be arranged until he assumes charge next Wednesday.

At the same time, it is officially announced, the offices of the Texas and padde Railway in San Francisco will be closed.

a host of friends on the Pacific tem a host of friends on the Pacific Cast, where he has been in the rallread bisiness for ten years, in charge of the freight department of the Texas and Pacific, with headquarters in San Practice. His territory comprised the stilre Coast. He has been with the fexas and Pacific system for thirties years, coming hither from Dallas, fix. Much of this time the company's passenger business on the Pacific Coast has been in charge of Thomas F. Fitzgerald, with headquarters in Loc Angeles. Both men have divided their time between the North and South in the conduct of traffic affairs pertaining to their road.

It had generally been supposed that the interests of the consolidated Gould lines in Southern California would be looked after by Mr. Fitzgerald, and Mr. Connelly's appointment yesterday came in the nature of a surprise to all parties concerned. The reasons for it is are doubtless best known to the traffic managers in the East, but, inasmuth as charge of affairs in Northern California was assaigned to the freight sod, it is supposed the same order of things was wanted in this end of the State; in fact, it is quite a general rule that the ranking officer shall be out of the freight and passenger agent of the Gould lines in Southern California will lie south of San Luis Oblspo and Rakersfield. It is probable that Mr. Tissperald will be given charge of the passenger end of the district's business.

to His Departure.

Clifford N. Hand, who for some years has been the efficient and popular assistant secretary of the Toung Men's Christian Association, was handsomely entertained at a banquet given at the rooms of the Young Women's Christian Association last night.

Mr. Hand has resigned the place he has so acceptably filled, and will take temporary charge of a Baptist Church at Oakland, meanwhile pursuing a theological course at the Pacific Theological Seminary at Berkefey. At the end of a year he will go East to Yale, where it is his present plan to spend two years, and he will then enter the ministry of the Congregational Church.

Following is the programme of last night's function: The dinner over, A. O. Switzer, toastmaster, called for responses to toasts, as follows: "Oratory." L. H. Young: "Our Country." Oscar B. Smith: "The Farn," Charles Cunningham: "Our Guest," Frank Hill: "The Press." W. E. Connell: "The Ministerial Student," R. 4. DeJarnette: "Secenitas Amoris." W. E. Amend; response. Clifford N. Hand.

BOSTON DRY GOODS STORE

239 South Broadway, Opp. City Hall, Los Angeles.

It is quite unavoidable that the end of the glove selling season should find us with a lot of odd lines in the different grades. It is also important that these odd lines be cleared from stock as quickly as possible, for we cannot carry them over to the Fall season. Hence this

Great Sale of Gloves

In order to make this, sale one of the important ones during the close of the June Clearance, we have included in this special offering at 75c, three distinct lines of gloves.

The first line includes odd Kid Gloves from our regular \$1.25, \$1.50 and \$1.75 lines. We have all sizes and nearly all shades and these Kid Gloves, being drawn from regular stock, are perfect in every respect. The price is 75c the pair.

The second lot consists of 12 inch black and white Silk Gloves of the regular \$1.25 quality. But the season wanes and we find it expedient to cut the price sharply. Choose among them at 75c the pair.

The third lot consists of black and white Silk Lace Gloves which sold at \$1.00 the pair. They are desirable and an exceptional value at the sale price of 75c. Choice 75c Saturday

Tipped Gloves at 50c and \$1.00.

They are the same sort as others ask 75c and \$1.25 for if they happen to have them at all. Our stock is complete in this line of Finger Tipped Gloves and includes black, white and colors,

We announce two special sales for next Monday. A special sale of silks and a special sale of embroidered sheets and pillow cases. Details will be given in Sunday's

The "Arnold" Knit Night Drawers

The rapidly growing demand for these health protecting, worry saving garments attests ther popularity.

For a warm weather sleeping suit for the child the "Arnold" Knit Fabric (lightweight) is preferable to flanned or muslin in every way. Shall we tell you why?

The "Arnold" Goods are soft, elastic, easily washed, will not shrink. Their porosity allows the exhalations of the skin to pass off freely, a very important item for a sleeping garment. Prices, 60 cts. to \$1.00.

UNUSUALLY CHOICE COFFEES

Several reasons why Jevne's coffees are a little finer, choicer than any you can get elsewhere. In the first place we import the finest berries grown—and permit of no adulteration. We understand the handling of coffee after it reaches us-the roasting. the blending, the keeping it fresh and free from dust. One of our most satisfactory coffees and used by many of our customers is our Blend of Mocha and Java at 40c the pound. Very rich and fine flavored.

"A Bird in the Hand"

PATRICK!

There is an old saying that "a bird in the hand is worth two in the bush," and by the same token a deliar deposited in the UNION BANK OF SAVINGS today, drawing four per cent. Interest is worth two deliars which you are intending to deposit at some indefinite time in the future.

Those people who from month to month postpone the act of opening a Savings account, never have the "bird in the hand," but always "two in the bush."

Deposits received by mail. Send for our Russell Sage booklet.

SENSATIONAL PLAY AT DETROIT.

(BY THE ASSOCIATED PRESS-P.M.)

DETROIT. June 25.—Philadelphia defeated Detroit otday in a sensational ten-inning game, by a score of 3 to 2. There was continued wrangling between the players and unpures, which there was continued wrangling between the players and umpires, which resulted in Hartzell and Mullin being put out of the game and chased off the field. Mullin had pitched great ball until the time when he was ruled off. There were several startling bits of fielding, an almost impossible catch by Lush and the work of M. Cross being of the highest order. Attendance 2870. Score:

Score:

BUTTE-PORTLAND. BUTTE-PORTLAND.

BUTTE (Mont.) June 25.—Butte today defeated Portland in a double-header. Butte played errorless ball in the first game, and won out by one run made in the ninth inning. Miller was retired early in the game by a split finger, and was succeeded by Harmon. Both twirlers were in fine form, and held the locals down to eight hits. A crop of errors by Portland in the second inning of the second game, two passes and five safe hits, netted Butte seven runs, and established a lead too great to be overcome. Attendance 700. ANOTHER FIGHT FOR FITZ.

GREGGAINS SUGGESTS GARDNER.

IBT DIRECT WIRE TO THE TIMES.

SAN FRANCISCO, June 25.—(Exclusive Dispatch.) Alex Greggains met Bob Fitzsimmons by appointment today, and asked the fighter if he cared to meet George Gardner in the fail. The Cornishman replied that he was ready to go with any one, and Gardner could have a match if he won from Jack Root July 4. Greggains considers the possibilities of Root's victory in that meeting as very remote, and the Fitz affair may, therefore, be said to be as good as made. Gardner has left the arrangements of the details in the hands of Greggains, and will battle any way that suits Bob best.

The manager's reasons for believing that Gardner is certain to beat Root are founded on the last affair at Sait Lake City. George worsted the hitherto undefeated boxer at every step of the road, and administered a drubbing that Greggains figures will never allow Root to show his best form again.

A FTER two months of the hardest kind of work on the part of Sheriif White and his deputies, they have landed in jail in Indian Territory a man who is supposed to be one of the two or more who were implicated in the murder in Los Angeles of George L. Mills, whose horribly-mutilated body was found during the latter part of April in a vacant house on West Sixteenth street.

The officers are so well satisfied that he is the man so much wanted for that atrocious crime that Sheriff White will leave this morning to bring him back. "I could not help noticing that he was agitated.

"Then he seemed to brace himself and, coming up to me, asked me how much it would cost io hire a hack to go to the depot. He quickly volunteered the information that he was going to get it for his wife. He said that she was going to take a train.

"I told him and he hurried out. In the doorway I saw his wife, who was waiting for him. She was the same woman that I had seen at the hotel.

"She is a very nice-looking woman, tail and slender and light complexioned." When O'Neil went out I saw him."

The Agricultural Building alone will occupy more space than the whole Pan-American Exhibition. The contour of the grounds is beautiful and admirably adapted to the purpose, and space has already been applied for to the amount of 50 per cent. over the capacity. "A great point is being made of the fact that a California organ manufacturer is to exhibit the largest instrument in the world in Music Hall at the fair. This is the organ made by the local factory which is to be finally installed in the Kansan City Convention Hall. One hears a great deal about it in St. Louis.

"Many of the exhibition buildings are already completed, and everything probably will be in readiness by January I of next year.

"Outside of the districts of the Middle West devastated by the terrible floods, prosperity is great this season. The crops are enormous. Kansas is auvertising for 18,000 harvesters, without any prospects of getting them."

The California commissioners left St. Louis for Chicago on the first eastbound train that made its way out after the climax of the flood.

'T believe that the people of this city would take the 149,000 issue of common-school bonds without any double," said Skilling yesterday. "There is a very considerable amount of unused money lying in the vaults of the banks and I haven't a doubt in the world that its possessors would be glad to withfraw it and invest in bonds bearing 3% per cent. Interest. The need for more schools is very generally felt, and if the bankers are going to fail usit is seems to me that the people should be given a chance to take the city's bonds. Any one man could take one believe that it is the quickest and best solution of the bond situation to sell the issue at popular sale."

THE JUDGE'S DILEMMA.

Then the glimmer of a white dress among the trees caught my eye.

"Duck, judge, duck!" I hissed. He took the hint and slipped behind a failen tree trunk that jutted far out into the stream, just in time to escape the view of a party of girls—guests at the hotel—who were returning to lunch after a morning ramble in the woods. As the party drew near I recognized one of the young ladks as the daughter of a New York friend of mine. I greeted her and purposely beld her in-talk for ten mortal minutes, enjoying laugely the discomfuture of the immersed and invisible judge. How much longer I would have kept up the look I cannot say, but at last an object, floating down stream, caught my attention. I stared at it with a gasp and as I gazed it sank gently beneath the surface of the water.

It was the judge's trousers. Tossed down in a hurry too close to the edge of the bank, a mischlevous eddy had caught them and whirled, them to a watery grave.

Prof. Emery Surprised.

A reception was given to the teachers of the Ninth-street school Weunesday afternoon at the school building, by the Child Study Circle. A musical programme was rendered by Rudolph Metz, Mrs. Mary O., Alien, Misses Hall, Lorb and Mathis. The president of the circle, Mrs. Peebles, spoke in words of highest praise of the efficient work-done by Prof. Emery as principal of the school, and as a token of esteem and remembrance, in behalf of the parents presented him with a handsome chair. It was a complete surprise to Prof. Emery. Avail display of work done by pupils of different grades was on exhibition in the hall and was inspected by many parents and friends of the pupils. Iccercam and cake was served and a social time enjoyed by parents and teachers together.

BIDDING FOR SUMMER TRADE. HUENEME, June 25.—As a result of the efforts of a number of citizens her who have been spreading throughou this end of the State infor Judges Noyes's court, and which is somewhat out of the ordinary. It is not a divorce suit, but a squabble over the possession of certain property at Hemet. Dixon alleges in his compiaint that in October, 1901, his wife persuaded him to sell his home place in Kinross, Iowa, promising if he did so and moved to Hemet with her, and paid off a mortgage on property she owned there, and lived on and improved said property, that she would deed him the west half of the property.

"Relying on these promises," says Dixon, "I sold my Iowa property and came to Hemet last August. I paid off the mortgage amounting to \$125, placed my furniture in defendant's house and paid for taxes, improvements, etc., the sum of \$4400. Up to the first of last May Mrs. Dixon promised repeatedly to deed me the property, but on that date she told me that it was her sole and separate property, but on that date she told me that it was her sole and separate property, but on that date she told me that it was her sole and separate property, and she refuse to the promiser discussions of the mortgage amounting to state. The promiser will be erected before the beginning of next season, and hereafter Huenene will make a bid for the summer resonts divisions in the season is over. officers in San Bernardine Tuesday, charged with having passed forged checks, was in this city at the Hotel Palomares Tuesday.

Smith, in company with a young woman, apparently 16 years of age, whose name appeared upon the hotel register as Miss Leia Galavin, registered as of Yonkers, N. Y. In the afternoon they started for a drive, and upon returning, Smith went to the register and, running an ink line through the girl's name, written on a line below his, wrote "and wife" after his own name, explaining to the clerk that "he guessed that would read better, as he had just been out hunting up a minister and had married the girl.

That night the couple left for Redlands. From later information it appears that Smith has stated, since his arrest, that he is not married, and no minister or justice has yet been found here who married the couple. The girl is said to be in Redlands. People at the hotel say they remember that Smith has been at the hotel here before. A woman, who has been with Smith, was also at the hotel some time ago. She went by the name of Mrs. McGoodwin, and, it is reported, tried to work a bunco game of borrowing money for a sick husband, but was unsuccessful. It is presumed that she and Smith have been operating together.

SUICIDE BY ACID.

OCEAN PARK, June 25.—The body of Willis W. Washburn of Hanford was discovered in an unfinished house near the Ocean Park Country Club yesterday morning. An empty bottle which had contained carbolic acid was found by the body.

The man had been staying in Ocean Park but a short time. Tuesday night he purchased a six-ounce bottle of carbolic acid at a local pharmacy. Some time in the night, it is supposed, he entered the house and drank the fiery liquid. The body was discovered there by workmen employed on the construction of the house. An identification card found in the pockets showed who the man was, and the identification was completed by Mr. Peacock of Los Angeles, who arranged with him Tuesday concerning employment which Mr. Peacock hoped to secure for him. Mr. Peacock sent a brother from Los Angeles yesterday to find Mr. Washburn, and the latter learned that the man had been found dead.

An inquest was conducted by Coroner Trout at Guidinser's undertaking rooms in Santa Monica yesterday, and resulted in a verdict of suicide. A brother of the dead man, living in Hanford, was informed by telegraph of the death. He replied, requesting that the body be prepared and shipped to Hanford.
